25	Some of it, but I was a little disturbed about the comment made about Palestinians, I think politics can stay out of this event. My Jewish partner was very offended and went home afterwards. It just didn't need to be part of the presentation.	2/23/2024 2:48 PM

speakers were difficult to hear from midway back in the room, though, which took away from my overall experience.

28	Very much so.	2/23/2024 9:31 AM
29	Yes	2/23/2024 9:02 AM
30	Yes, but not sure if the costs were too much. It is like bringing in 3 keynotes. For a conference like TPC, two keynotes would be great, one at or near the beginning and one at noon.	2/23/2024 12:00 AM
31	Yes	2/22/2024 1:18 PM
32	Yes, but some more depth on some of the questions would have been helpful.	2/22/2024 11:20 AM

48	Definitely!!	2/21/2024 5:18 PM
49	N/A	2/21/2024 5:03 PM
50	I cannot answer this as I am one of the 3M panel members.	2/21/2024 4:55 PM
51	Not really. It was a lot of platitudes, and it was weird that they were all from science. I thought it was odd to start this way rather than with the keynote, and I think it really undercut the keynote in a lot of ways	2/21/2024 4:49 PM
52	I was unable to attend	2/21/2024 4:40 PM
53	Excellent	2/21/2024 4:38 PM
54	Didn't attend	2/21/2024 4:37 PM
55	Very	2/21/2024 4:28 PM
56	No. Extremely poor. It was impossible to hear many of the speakers remarks - and those which I did hear were just platitudes "Put your problem in a jar." The chairs in the room were so disorganized and so many were late to attend that I spent more time dodging incoming people than actually seated. It actively made me not want to attend the remainder as it was so poorly organized. One would think that supposed award winners would be able to speak in a large room without microphones - but the fact that they weren't was on the orgnaizers.	2/21/2024 4:27 PM

24	It was so relevant and I am very grateful that the slides were shared with us as requested.	2/23/2024 11:17 AM
25	I liked her presentation style but thought there was too much use of mentimeter. Or at least there wasn't much connection between the mentimeter and her material. I was hoping for more of her insights and knowledge on the topic to be shared.	2/23/2024 9:41 AM
26	Yes - but harder to engage with online/over zoom	2/23/2024 9:31 AM

## Q7 Which session(s) were most helpful to you and why?

Answered: 47 Skipped: 11

#	RESPONSES	DATE
1	I thought the session on international experiences of ESL in Viet-Nam was interesting. It inspired me to think about ways to involve students in our program with TRU World.	3/1/2024 10:20 AM
2	The session about Quiz due to a reframing of the notion of the quiz as an educational tool	2/29/2024 11:34 PM
3	I enjoyed Maggie's trauma-informed classroom session. It provided valuable insights into creating a trauma-informed classroom and being more sensitive to students' needs.	2/29/2024 3:46 PM
4	I liked the 10 minute sessions as they were long enough to hear what faculty was doing and then you could meet with them after if you were interested.	2/29/2024 3:13 PM
5	Posters and some presentation aligning with my felids of interests	2/29/2024 9:25 AM
6	Loved Christie Frasers presentation on Quiz. It was excellent and thoughtful. I learned a lot from it and have since shared my learnings with my entire team.	2/29/2024 8:46 AM
7	Maha's session. I needed some positivity.	2/29/2024 8:34 AM
8	Foreign Language Teaching in Vietnam,	2/29/2024 7:23 AM
9	There was a session about Academic Integrity and analyzing who and why it happens. I stayed after to discuss with the presenter and another attendee. We shared experiences and frustrations. The session about the UN fellowship also gave me insights into other work that is done all around me that I don't always see. And ideas about things I might want to do in future.	2/28/2024 5:42 PM
10	The 3M session for sure; like I said ... a couple pages of notes.	2/28/2024 5:37 PM
11	Introducing the TRU Open Press, with Brenna Clarke Gray, Dani Collins and Marie Bartlett	2/28/2024 5:16 PM
12	Maha Bali- this presentation was engaging, timely and made meaningful contributions to this important topic. Great resources shared too.	2/28/2024 4:25 PM
13	All	2/28/2024 3:54 PM
14	Concurrent plenary sessions	2/28/2024 3:49 PM
15	all the sessions about integrating AI in teaching and learning as this is a coming trend and I want to ensure to be updated	2/28/2024 3:47 PM
16	I was only able to attend the morning 3MT session. It was good, the panelists were engaging.	2/28/2024 3:35 PM
17	The session by Hilary Schmidt regarding trauma-informed pedagogy and the 3M panel were the most helpful. I think Hilary's topic is very relevant to teaching and is something more faculty need to be aware of and should shift their teaching practice to be trauma-informed. The panelists were a good reminder of the value in humanizing teaching and to also be kind to ourselves; we are imperfect beings, and that is ok - we need to share that with students as well.	2/27/2024 11:25 AM
18	they got repetitive	2/27/2024 8:13 AM
19	I liked the variety of session types and lengths. Kept the day interesting.	2/26/2024 9:54 AM
20	Jim Hu on plagiarism; Trent Tucker on teaching tips; Heather Simeney on incorporating indigenous content	2/25/2024 10:34 AM
21	A enjoyed the Indigenous Art one and about being a perfectionist.	2/23/2024 2:48 PM
22	Keynote	2/23/2024 11:17 AM
23	I enjoyed the trauma-informed sessions as they are relevant to subject matter I teach, as well as the session on being Open, Flexible, and Kind	2/23/2024 9:41 AM

## Teaching Practices Colloquium 2024

24	I really enjoyed the Panel, it was inspiring, and Heather McLeod's teachings/perspectives on Indigenization.	2/23/2024 9:31 AM
25	Bring AI into teaching and learning practice - it was helpful how they approached the topic from different perspectives (i.e., enthusiast and cautious cat)	2/23/2024 9:02 AM
26	The keynote. Great insights.	2/23/2024 12:00 AM
27	AI	2/22/2024 11:20 AM
28	The keynote and the afterward with music and chit chat because these are the sections that I feel benefited me most (keynote was pertinent, and it was lovely to reconnect with colleagues and meet new colleagues).	2/22/2024 10:43 AM
29	No	2/22/2024 9:51 AM
30	Anything on building community was of interest to me as I feel this is a good way to keep all students engaged and committed.	2/22/2024 9:14 AM
31	not sure	2/22/2024 9:12 AM
32	I enjoyed the discussion surrounding forms of testing.	2/22/2024 8:33 AM
33	The Panel Discussion was most helpful - I obtained relevant information which I can take back to my own classrooms	2/22/2024 8:23 AM
34	AI- I am new to the world of AI so any tips and tricks in how to utilize it as a learning tool and educate students about proper use is vital.	2/22/2024 8:05 AM
35	Helpful?? Always a tricky word - but I would say that I enjoyed time for discussion in any session I attended.	2/22/2024 6:57 AM
36	Ones with practical tips and less theory	2/22/2024 6:02 AM
37	Poster-IRCC	2/21/2024 11:03 PM
38	The trauma informed sessions were very helpful, I learned strategies for being more compassionate when engaging with others	2/21/2024 9:16 PM
39	Session on AI and the corpse game	2/21/2024 7:36 PM
40	The AI discussion was interesting.	2/21/2024 5:40 PM
41	The keynote and 3M panel were both very helpful.	2/21/2024 5:32 PM
42	I enjoyed, for different reasons, each of the ones I attended. The UN one was so interesting, and the Appreciative Inquiry one also stood out for me. But none disappointed me.	2/21/2024 5:18 PM
43	AI related sessions	2/21/2024 5:03 PM
44	Concurrent sessions and posters	2/21/2024 4:55 PM
45	I liked Twyla and Robin's session about their Art/Geography community empowerment course. It was a really good example of innovative and inspiring pedagogy	2/21/2024 4:49 PM
46	Brining AI into Teaching and Learning practice	2/21/2024 4:37 PM

## Q8 What were two of your main takeaways from the event?

#	RESPONSES	DATE
1	The variety of experiences and programs available at TRU. We should get out and explore them.	3/1/2024 10:20 AM
2	Improvisation and the usage of evaluations as learning opportunities	2/29/2024 11:34 PM
3	Showing greater kindness in our teaching environment and learning various strategies to support our students.	2/29/2024 3:46 PM
4	Faculty are taking a practical approach to AI (or some are). There are many ways faculty can "care" and many interpretations of what caring means.	2/29/2024 3:13 PM
5	-	2/29/2024 9:25 AM
6	TRU has some incredibly talented faculty members working here and attending these sessions should be a must each year. I've never left a TPC event without learning something new and understanding how amazing our institution is.	2/29/2024 8:46 AM
7	Networking, learning from each other.	2/29/2024 8:34 AM
8	1. AI is an inevitable trend in our lives and education, and we can't stop students from using AI in their assignments. 2. Though AI can generate suggested answers, it may have bias or errors due to new inputs in database every day. We can't completely rely on AI but can use it to give us some ideas or an outline.	2/28/2024 11:44 PM
9	Pay more attention to the people around me and reach out to them with questions and ideas.	2/28/2024 5:42 PM
10	resources shared by Maha Bali, Tanya Pawliuk's Workshop: Experiential, integrated and transformative learning	2/28/2024 4:25 PM
11	The richness of the sessions The ability to hear from other teachers on the issues of kindness	2/28/2024 3:49 PM
12	1. This was a great opportunity for me to get to know like minded educators. 2. Everything was very well organized	2/28/2024 3:47 PM
13	That I wish I was able to attend more of the sessions!	2/28/2024 3:35 PM

15	promotion of care and kindness	2/27/2024 8:13 AM
16	There are a lot of neat things happening at TRU! Feeling inspired to dig into some of the resources I learned about.	2/26/2024 9:54 AM
17	How organized and collaborative we all are, there was a general spirit of teamwork and comradery in the sessions and in the hallways, meal settings. Thank you!	2/23/2024 2:48 PM
18	Stay genuine with your students. Strive to take care of yourself as well as others.	2/23/2024 9:41 AM
19	"Calm seas don't make useful soldiers" and "Dissonance is the Mother of thought". Also reflections on Anger and the grief process in conversations on Indigenization.	2/23/2024 9:31 AM
20	There might finally be a shift in terms of the value of self-care. Traditionally, it seems that the perception has been that if you have time for self-care, then you aren't devoting yourself enough to academia. I got the sense that perhaps the value of self-care is finally gaining more acceptance. Generative AI is continuing to gain traction.	2/23/2024 9:02 AM
21	Not sure	2/23/2024 12:00 AM

26	Building community at two different times: beginning of course and what can be done then, as well as checking in on students in unique ways.	2/22/2024 9:14 AM
27	not sure	2/22/2024 9:12 AM
28	1) Compassion can also mean being strict 2) Mentimeter is an excellent tool to engage audiences	2/22/2024 8:23 AM
29	AI can be used for activities to enhance critical thinking Creating a caring environment aids students in learning	2/22/2024 8:05 AM
30	People have a lot on their minds; it seems they need to talk ... to explore ways to make connections and host those conversations.... maybe round tables? I did like the teaser of the yarn map of the work we do.	2/22/2024 6:57 AM
31	networking with other parts of the university and learning from experts in teaching	2/22/2024 6:02 AM

## Q9 What would you like to see for future TPC themes and topics?

1	I have been struggling to apply a flipped classroom in my lectures. Maybe some experiences and advice on that?	3/1/2024 10:20 AM
2	I really enjoyed the undergraduate research session by Leanne, Sarah and Anusha and I would love to see more topics on research opportunities and how to apply for grants	2/29/2024 3:46 PM
3	One focused on different student engagement methods (activity, cases, pedagogy).	2/29/2024 3:13 PM

5	teaching strategies, innovation towards Work-Integrated Learning techniques	2/29/2024 8:46 AM
6	More student involvement.	2/29/2024 8:34 AM
7	I'd expect to have Students sharing sessions to listen to what they actually like. It'd be more direct and user-oriented.	2/28/2024 11:44 PM
8	I'm still stuck in the academic integrity trap...how can we help our students be better students and better people.	2/28/2024 5:42 PM
9	Personally I found the theme and sub-theme areas really hard to work with to craft a proposal for. I'd rather hear about things that I can implement in my class to boost engagement (say) vs trauma-informed pedagogy as an example.	2/28/2024 5:37 PM
10	Inclusion, Decolonization/Indigenization, Land-Based Learning, Creative/Imaginative problem solving and world making (Rob Hopkins, What is to What if)	2/28/2024 4:25 PM
11	Different topics than the ones that are more trendy these days. Areas that are less explored, but still important. for example, teaching challenges, students' engagement in the classroom and to the topic, science-related subjects, how to teach science to the students better.	2/28/2024 3:54 PM
12	Nothing different	2/28/2024 3:49 PM

21	More on how we work with Grief and other emotions in education. Specifically in relationship to Equity seeking	2/23/2024 9:31 AM
22	Open learning continues to be a great theme and complements what we do in person. Many faculty want to try more open learning approaches but lack pd opportunities.	2/23/2024 12:00 AM
23	Trans/interdisciplinary approaches and ideas.	2/22/2024 11:20 AM
24	Nothing in particular.	2/22/2024 10:43 AM

29	Sustainable teaching within the world of climate change. Learning outdoors or bring nature into the classroom.	2/22/2024 8:05 AM
30	I really would like to see longer sessions. I find the short sessions are... well, too short. Especially if I were a new teacher, I would like sessions that provide classroom tools, techniques, strategies... so to move beyond reporting what was done and referring to research and instead to shift to really focus on HOW TO truly connect to and enhance learning.	2/22/2024 6:57 AM

38	I kinda don't think the TPC needs a theme. It should really just be what it is, which is a good networking day for TRU people. Honestly, it would be good to lean in even farther to this--if you're going to have a theme, organize a cross-disciplinary panel, build in some different types of networking events.	2/21/2024 4:49 PM

## Q10 We recognize that food is an important element to the in person experience. How would you rate the food provided (quantity and quality) at the Kamloops campus?

Answered: 50 Skipped: 8

#	RESPONSES	DATE
1	I very much liked the food.	3/1/2024 10:20 AM
2	Both quantity and quality were great.	2/29/2024 11:34 PM
3	It was satisfactory	2/29/2024 3:46 PM
4	Just okay. I would like to see a hot lunch. I would have liked to have wine at the social.	2/29/2024 3:13 PM
5	Yes	2/29/2024 9:25 AM
6	quantity was a miss this year but quality was good	2/29/2024 8:46 AM
7	The quality was ok. There was not enough food for lunch.	2/29/2024 8:34 AM
8	Good.	2/29/2024 7:23 AM
9	Excellent food. Not enough coffee :)	2/28/2024 5:42 PM
10	Fine	2/28/2024 5:37 PM
11	Good Plant-based food can be less expensive, more inclusive, and less harmful to the planet. Perhaps we need to consider a new mantra. "meat is for eating at home". I have been exploring this with the many community groups I work with and plant based food spreads are a huge hit, with few leftovers, all or most people able to eat (fewer allergen, etc.) and more affordable. Highly recommend.	2/28/2024 4:25 PM
12	Not satisfied	2/28/2024 3:49 PM
13	pretty good	2/28/2024 3:47 PM
14	n/a	2/28/2024 3:35 PM
15	Quality of food was good and was clearly labelled. The lay out was confusing - everyone swarmed the table (because everyone was hungry!) but here was no 'flow', so some signage about where/how to line up was needed.	2/27/2024 11:25 AM
16	good	2/27/2024 8:13 AM
17	Quality was excellent! I can't speak to quantity as that wasn't an issue for me. Just missing dessert!	2/26/2024 9:54 AM
18	good!	2/26/2024 8:57 AM
19	More hot food options please!	2/25/2024 10:34 AM
20	It was good, but not enough spring rolls (again!) need more, everyone takes them too quickly. Maybe we don't need the alcohol part? Or a toonie bar... tickets could go towards a prize draw or something instead. :)	2/23/2024 2:48 PM
21	I registered too late so did not eat the meals except at the social. There were adequate items to meet my limitations (gluten free)	2/23/2024 9:41 AM
22	Very good - but it all went too quickly, a little more?	2/23/2024 9:31 AM
23	n/a - I joined online	2/23/2024 9:02 AM
24	Unfortunately, this year's food was under budget (not enough for everyone). A warm option would be good such as the soup we had last year. That would complement the cold options.	2/23/2024 12:00 AM

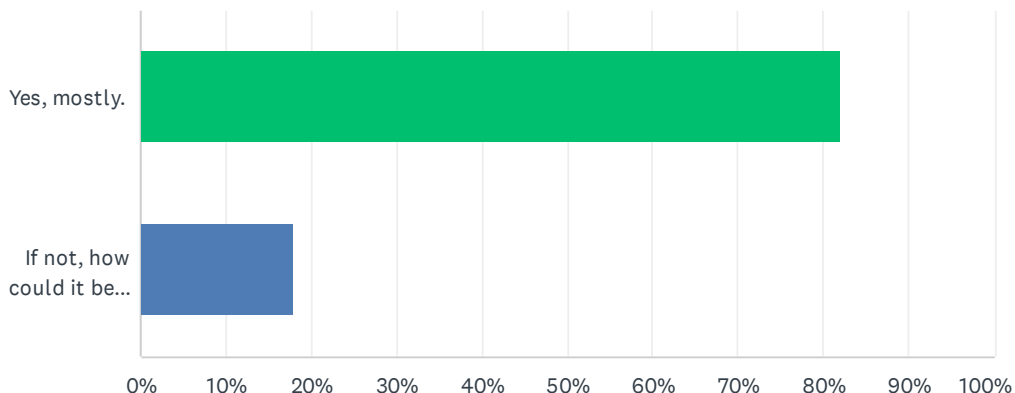

## Teaching Practices Colloquium 2024

Background music adds to the atmosphere but both last year and this year, the music was too loud making it difficult to hear each other talk. Perhaps a violin or a piano in the back rather than a loud band could be considered.

25	Good food	2/22/2024 1:18 PM
26	Good	2/22/2024 11:20 AM
27	The quality was excellent; however, there wasn't enough provided, which was perplexing and disappointing. I didn't get a sandwich during lunch hour. I only had a few pieces of fruit. Also water ran out or wasn't provided.	2/22/2024 10:43 AM
28	Good	2/22/2024 9:51 AM
29	There wasn't enough to eat. I'm vegan and I got a few pieces of fruit at one point in the day. One person was super nice and made an extra trip to grab a sandwich for me, but otherwise, there was nothing I could eat.	2/22/2024 9:43 AM
30	Not applicable	2/22/2024 9:14 AM
31	The food was really good, but the coffee ran out quickly in the morning.	2/22/2024 9:12 AM
32	N/A	2/22/2024 8:33 AM
33	Excellent as always	2/22/2024 8:23 AM
34	Quality was great. Lunch was a bit short but there was plenty in the AM and in the PM. A few more tea options would be wonderful.	2/22/2024 8:05 AM
35	It is a little the same old... but the breakfast was fabulous with those spinach and feta croissants and the sausage rolls:).	2/22/2024 6:57 AM
36	very good	2/22/2024 6:02 AM
37	10	2/21/2024 11:03 PM
38	The food was excellent	2/21/2024 9:16 PM
39	Would have liked chocolate with lunch 😊	2/21/2024 8:39 PM
40	Good	2/21/2024 7:36 PM
41	Lunch was all gone by the time I got to the food table but the after appies were good.	2/21/2024 5:40 PM
42	The food was fine, but there were some pragmatic oddities (like no tongs for serving crudites...lots of people struggling with plastic forks). Layout was also problematic at lunch (difficult to get to drinks after going through the food line).	2/21/2024 5:32 PM
43	The food was good. And there definitely was plenty.	2/21/2024 5:18 PM
44	Excellent	2/21/2024 5:03 PM
45	Not enough lunch? It seemed. I ate only half a sandwich.	2/21/2024 4:55 PM
46	The lunch wraps were not good. They were all very similar and bland.	2/21/2024 4:49 PM
47	I did not eat. Maybe reusable drinking cups rather than bottled drinks would be worth consider.	2/21/2024 4:40 PM
48	Food was great but I would love some small sweeties following lunch. :)	2/21/2024 4:38 PM
49	Not enough, as everything was gone by the time I arrived later in the lunch break	2/21/2024 4:37 PM
50	Bad.	2/21/2024 4:27 PM

1	Consider putting large format posters on the doors of the breakout rooms so people know what is where and walk around ringing a cowbell so people know when the sessions start...	2/28/2024 5:37 PM
2	I was disappointed to find that some of the sessions that I most wanted to attend were not available to online participants -- and I never was able to access the posters that were supposed to be available online. Also, we seem to be moving backwards in terms of the technology, which didn't work nearly as smoothly as it has during previous online and hybrid TPCs.	2/28/2024 5:16 PM
3	Some technical issues seemed to interfere with folks being able to access presentations remotely.	2/27/2024 11:25 AM
4	There were difficulties connecting to technology in the break out sessions which led some of us to miss the content we were interested in. There were also a lot of choices for talks, which was nice, but limited the number you could attend	2/23/2024 9:41 AM
5	Technology issues plagued many of the online presentations.	2/22/2024 9:14 AM
6	I found them all quite challenging to engage in virtually. With all of the tech issues, most of the sessions did not get up and running or were very late to start and rushed.	2/22/2024 8:33 AM
7	would be nice to have more posters as to what speaker was where. Lots of tech issues so missed sessions I wanted to attend	2/22/2024 6:02 AM
8	There was no support or scaffolding for the hybrid component. It just didn't work. The schedule was only emailed out the friday before, and it was a very poor document--impossible to find the necessary info. I didn't think the day was well organized in terms of the schedule. Lunch was very short. Who had lanyards prepared and who did not seemed to be random in places.	2/21/2024 4:49 PM
9	There were substantial technical problems in some of the sessions, and I found it hard to hear everyone during the panel and keynote.	2/21/2024 4:28 PM

1	Perhaps create a Team user for each lecture room that is always signed on and doesn't have to be changed from session to session? (I don't know if that is easy to do, however).	3/1/2024 10:20 AM
2	No	2/29/2024 3:46 PM
3	Reduce the number of hybrid options. I understand that technical issues occurred despite testing the week prior, but it would be better to have less options, but ensure they work well.	2/29/2024 3:13 PM
4	-	2/29/2024 9:25 AM
5	It worked fairly well! Hybrid formats are difficult to facilitate and the TPC group did really well.	2/29/2024 8:34 AM
6	I attended one session online because I had stayed late in a concurrent session and the room was full when I went to the keynote address. It was good to be able to join later. But I do prefer in person by a great margin.	2/28/2024 5:42 PM
7	I would like to see more attention given to ensuring that everyone is included whether they are participating online or in person.	2/28/2024 5:16 PM
8	Hybrid is great! BUT only if the technology works. I was a moderator and none of the session I was in could include the online participants. It impacted timing and presentations a lot!!	2/28/2024 4:25 PM
9	It was well organized except for few times when there breaks from the other side	2/28/2024 3:49 PM
10	I had some technical issues during my presentation. When I said that I would like to use my personal laptop, I was told that it is not recommended as it might encounter some technical issues. I think the team should work on the integration of different modes of presentation. During the presentation, all of a sudden, there was loud music came out of nowhere from the speakers and even the technical staff did not have any idea where it came from	2/28/2024 3:47 PM
11	The panelist discussion...it was a bit hard to hear the panelists online.	2/28/2024 3:35 PM
12	none	2/27/2024 11:25 AM
13	It's unfortunate we experienced issues with Teams. It sounds like the tech was tested the week before so it would be good to diagnose what happened and whether that's a good platform to use next time. If the conference is hybrid next year, I suggest having a general TPC account logged in to all of the computers in the classrooms with the schedule easily accessible from the desktop in order to access the relevant link for the hybrid component. This way, people don't have to log in/ log out and can quickly find the link to connect to the hybrid session.	2/26/2024 9:54 AM
14	Prefer to have the keynote speaker in person	2/25/2024 10:34 AM
15	Sometimes IT a bit off, I really think we need to get back face-to-face and enjoy each other's human company again and stop the hybrid thing.. too complicated and distracting when not working. Also, the keynote should be here in person!	2/23/2024 2:48 PM
16	Technical difficulties took away from the in-person experience. If going to do a hybrid again, then each room needs to have technology supported	2/23/2024 9:41 AM
17	I like the hybrid option - but I'd also like to see fewer options so that each presentation can have better attendance and more opportunity for discussion. Longer sessions.	2/23/2024 9:31 AM
18	There were some technical issues with some of the session, but that's to be expected.	2/23/2024 9:02 AM
19	One room was said to have multimedia not functioning. Perhaps those hybrid rooms can be tested one day in advance to ensure functionality and then locked till next day.	2/23/2024 12:00 AM

## Teaching Practices Colloquium 2024

20	I really dislike the hybrid format. It would be better to have everything in-person. It's a better experience for both presenters and attendees. Too much time spent with teams (and the resulting delays and technical issues) and participants would benefit much more from all participants being present in person. Online or in-person is better, but not a blend of both. Similarly, the keynote should be someone who is able to attend in-person and be part of the dialogue and learning at the conference. I appreciate that the hybrid approach offers opportunity for some to attend virtually, but I think that it would be a better event with everything being done in person. That said, I appreciate all the work that goes into organising the event.	2/22/2024 11:20 AM

22	Make sure the technology works and that everyone understands how to operate it.	2/22/2024 9:14 AM
23	If wanting to run hybrid again, please make sure that the tech kinks are sorted prior to the event. It made it very challenging and frustrating to attend.	2/22/2024 8:33 AM
24	Too many technical issues! Stressful for tech support in rooms...	2/22/2024 8:23 AM
25	Sadly there were many technological issues making it a challenge to run as hybrid	2/22/2024 8:05 AM
26	I just think 'seeing' people and being seen is such an important part of being human and especially as an instructor which is such an insular profession.	2/22/2024 6:57 AM
27	no	2/22/2024 6:02 AM
28	There seemed to be some confusion when the Teams app was not installed on some classroom computers, I would like to see instructions included for logging into the web app	2/21/2024 9:16 PM
29	There were issues with morning sessions where technology impacted presentation and time limits	2/21/2024 8:39 PM
30	Test the IT...a couple sessions didn't work as speaker couldn't be heard	2/21/2024 7:36 PM
31	If we're forced to use MS Teams, have the client installed on the computers. I think Zoom is better anyway.	2/21/2024 5:40 PM
32	The tech did not work well in some rooms/for some sessions.	2/21/2024 5:32 PM
33	I find the hybrid detracting, but then, I also understand how it does make the event more convenient for some. I always aim for the in-person only parts.	2/21/2024 5:18 PM
34	It was okay.	2/21/2024 4:55 PM
35	Hybrid is hard to do, and it was not done well here. I completely understand why the committee may not have had the capacity to support the hybrid, but what I would say is if you don't have this capacity, don't do it. Moderators were left really confused and I'm sure people who wanted that hybrid experience were disappointed at some points. One of the presenters tried to come in virtually, and nobody seemed to know that was happening and it just didn't work. Please don't do it.	2/21/2024 4:49 PM
36	Thanks to the organizers! Great work.	2/21/2024 4:40 PM
37	I was just really pleased to see this was an option	2/21/2024 4:37 PM

8	Great job, committee! :)	2/27/2024 11:25 AM

10	It's always a lovely event where we can learn, share, and connect!	2/26/2024 9:54 AM
11	That you are all amazing for doing this each year! :) a huge team effort and always wonderful to celebrate. Could the band be sooner , so people can enjoy and face the folks instead of being in a corner!? They were so awesome.	2/23/2024 2:48 PM

21	Thank you to those on the committee that took up the challenge to do the work needed! Thank you so much for being a thread of connection for faculty and students.	2/22/2024 6:57 AM
22	Not enough people attended presentations. Have few options. Presenters spend a lot of time putting together presentations. Disappointing when only 3-5 people attend the presentations	2/21/2024 8:39 PM

24	Thanx to all the committee members and volunteers.	2/21/2024 5:40 PM
25	Great job, organizers!! Just one point for improvement: clearer communication with presenters around things like availability of PowerPoint clickers. I may have missed the communication, but I don't believe presenters were advised that they needed to bring their own.	2/21/2024 5:32 PM

27	Thank you very much!!!!	2/21/2024 4:55 PM
28	I know the TPC is a good opportunity for faculty to get to share their work and we don't want to be turning presenters away, but there was just too much: too many concurrent sessions at once given the overall event size, and too many sessions squeezed into the day. 5 more minutes for questions and a few more minutes to breath between sesssions would have felt less hectic.	2/21/2024 4:37 PM
29	Extremely disappointing and poorly ran,	2/21/2024 4:27 PM
