

## **TRU Program Review Schedule 2010 to 2016**

*Revised – September 21, 2012*

The following schedule lists the programs that will be reviewed each year. This schedule was developed with the direct involvement of the Deans of all Schools and Faculties.

The following criteria were used to guide the development of this schedule:

- All TRU programs must be reviewed once every seven (7) years,
- Similar on-campus and Open Learning programs will be reviewed concurrently as a *program grouping*. Likewise, related programs that “ladder” or lead to higher-level programs will be reviewed as a program grouping.
- The scheduling of program reviews should, whenever possible, be a strategic decision, producing the greatest benefit to the University, taking into account program restructuring, accommodating external accreditation requirements, overall program health, and other factors.
- The program review workload is approximately 10 program reviews per year, involving a cross-section of TRU’s Schools and Faculties and taking into account the relative complexity and resources required to complete each year’s reviews.
