

Do I require a safety plan for my function at TRU?

Is the function considered to be academic, work related or social?

1- This could be study groups, tutoring, extra support, field trips, etc.

2- A meeting or work related activity is still allowed to serve food. Food does not automatically turn a work activity into an event.

3- Contractors who are paid to conduct work for TRU or to support TRU, such as facilities work, auditors, trainers, presenters to employees for training, etc.

Please note, all tabling events (information tables set up around campus) are currently suspended at this time.
